

A team of third-year Electronics & Communication Engineering students from A J Institute of Engineering & Technology (AJIET) visited the KIOCL Pellet Plant Unit on 20 November 2025. The visit aimed to provide students with practical exposure to large-scale industrial processes. Engineers at KIOCL briefed the students on pellet production, automation systems, and safety practices. The visit was organised and coordinated by Dr. Kiran Kumar V. G., HOD, Dr. Jennifer C. Saldanha, and Mr. Harsha C. J., faculty of the ECE Department, AJIET. Faculty coordinators expressed that the visit greatly enhanced students' understanding of real-time industrial applications.
