Proposal

Subject: To organize the “Demo Day/ Presentation of Ideas and linkage with Innovation Ambassadors/Experts for Mentorship Support - Manage through YUKTI-NIR”

Institution Innovation Council -IIC cell – YUKTI NIR in Association with (clubs) AJIET is organizing the “Demo Day/ Presentation of Ideas and linkage with Innovation Ambassadors/Experts for Mentorship Support - Manage through YUKTI-NIR” from 22.09.2023 to 24.09.2023. 9.00 am – 5.00pm, for the students and faculties. The objective of the event is to enable students/ faculty to develop and strengthen their proposed project model into prototypes and Mentorship Support to initiate the innovations/ prototypes.

Mapping to Program Outcomes (PO's): The event is relevant to PO3, PO4, PO5, PO6, PO8, PO9, PO10, PO11, PO12

PO3: Design/Development of Solutions: The ability to design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12 Life-long Learning: Recognize the need for and have the preparation and ability to engage in independent and life- long learning in the broadest context of technological change.

support is told. Later the importance of project works and suggestions to improvise their works was discussed with each teams. The need to take initiative and to have the courage for unique and forward steps to become an entrepreneur. Overall the innovativeness of the projects developed and the need to convert into prototype models was encouraged and discussed.

Objectives: The program on enable students/ faculty to

- Develop and strengthen their proposed project model into prototypes
- Mentorship Support to initiate the innovations/ prototypes.

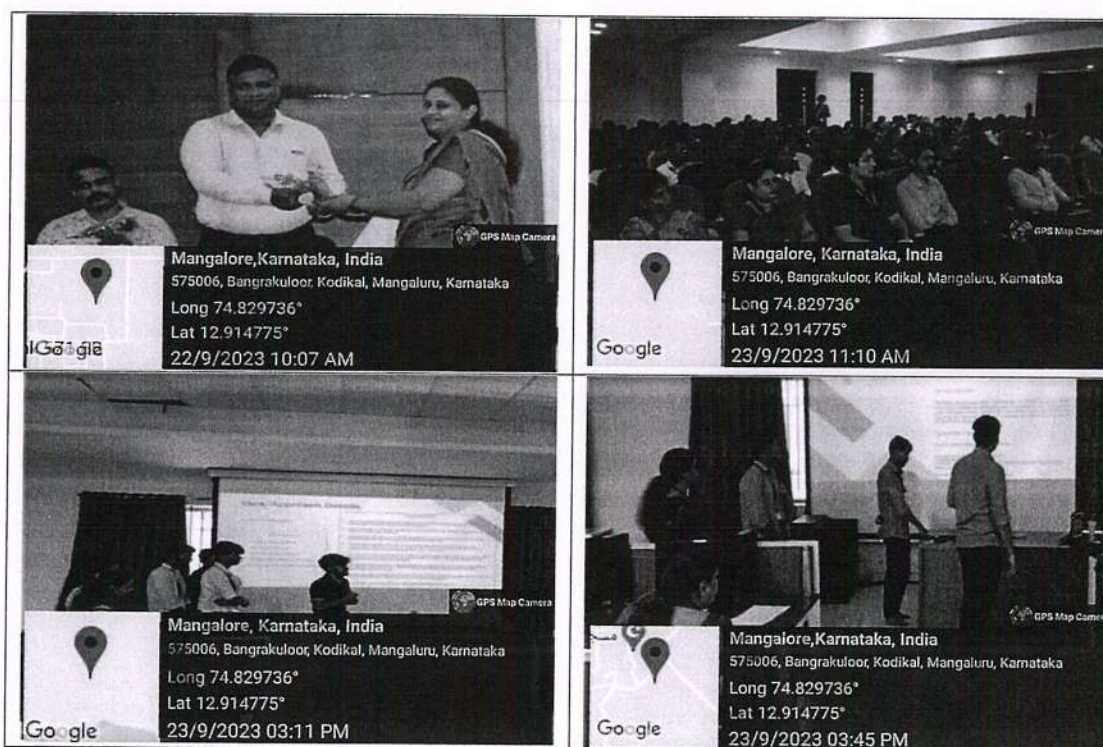

Outcomes: On successful completion of Power Point presentation program the student should able to:

- Need for developing prototypes and updation of the skills required.
- Importance of Innovations and commercialization skills for personal and professional life.
- Developing Innovation and Entrepreneurial Skills.
