Objectives: This Impact Lecture program enable students to:

A.J. Institute of Engineering & Technology
Mangalore - 575 006

- To introduce students to creative and critical thinking elements that will stimulate unconventional ways of thinking about processes.
- To inspire students to think of themselves as entrepreneurs
- To introduce the pillars of entrepreneurship and innovation to support the deeper development of a business idea and writing up of a workable business plan.
- To foster an appreciation among the students of the important role of businesses in the Caribbean and inspiring them to rise to the challenge of entrepreneurial creation.

Outcomes: The students will be able to:

1. Entrepreneurship and Innovation minors will be able to sell themselves and their ideas. Students master oral and visual presentation skills and establish a foundation of confidence in the skills necessary to cause others to act.
2. Entrepreneurship and Innovation minors will be able to find problems worth solving. Students advance their skills in customer development, customer validation, competitive analysis, and iteration while utilizing design thinking and process tools to evaluate in real-world problems and projects.
3. Entrepreneurship and Innovation minors will be able to mobilize people and resources. Students identify and secure customers, stakeholders, and team members through networks, primary customer research, and competitive and industry analyses in order to prioritize and pursue an initial target market in real-world projects.
4. Entrepreneurship and Innovation minors will be able to create value. Students are able to create presentations and business plans that articulate and apply financial, operational, organizational, market, and sales knowledge to identify paths to value creation through 1) company formation (for-profit); 2) social innovation (nonprofit); or 3) intellectual property licensing.
