Proposal

Subject: To organize the workshop on “Intellectual Property Rights (IPRs) and IP management for start-up”

Institute Innovation Council (IIC) and Research and Development Cell AJIET is organizing the “Intellectual Property Rights (IPRs) and IP management for start-up” on 27/04/2024 from 9:30 AM to 6:00 PM for the students and faculties. The objective of the event is to provide a broad understanding of Intellectual Property Rights (IPRs) and their significance for start-ups. Also to guide participants, including students and faculty, on the process and useful steps for patent filing and obtaining IPR approval for start-ups.

Mapping to Program Outcomes (PO's): The event is relevant to **PO5, PO6, PO8, PO9, PO10, PO11, PO12**

PO5: Modern tool usage: Create, select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and Team Work: Function effectively as an individual, and as a member or leader in diverse teams and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

About the Program:

The Institute Innovation Cell (IIC) and R&D Cell of AJIET organized a one-day workshop on "Intellectual Property Rights (IPRs) and IP Management for Start-ups" on 27/04/2024. The workshop aimed to educate and empower start-up enthusiasts with essential knowledge about intellectual property rights and effective IP management strategies.

The workshop commenced with the formal invitation of the guest speaker, Dr. Arun M. Isloor, Professor of Chemistry from NIT Karnataka, Surathkal. A prayer was conducted by Ms. Spoorthi, a first-year student from the CSE-ICB department, invoking blessings for the success of the workshop. Dr. Sangeetha D M, Associate Professor, Dept. of Civil Engineering, AJIET, delivered a warm welcome speech, setting the tone for the day's proceedings. A ceremonial lamp was lit to symbolize the enlightenment and knowledge to be gained from the workshop. Mr. Kaushik, a first-year student from the CSE-ICB department,

Principal

introduced the guest speaker, Dr. Arun M. Isloor. The Principal of AJIET, Mangalore, addressed the audience, emphasizing the institution's commitment to fostering innovation and entrepreneurship among students.

Objectives:

- To provide a broad understanding of Intellectual Property Rights (IPRs) and their significance for start-ups.
- To guide participants, including students and faculty, on the process and useful steps for patent filing and obtaining IPR approval for start-ups.

The workshop comprised four sessions, each focusing on specific aspects of intellectual property rights (IPRs) and management tailored for start-up ventures:

Session-1: Start-ups in Academia, History of Intellectual Property, World Intellectual Property Organization (WIPO): This session provided an overview of the relationship between academia and start-ups, highlighting the role of academic institutions in fostering entrepreneurship and innovation. It delved into the historical evolution of intellectual property rights (IPRs) and introduced participants to the World

Principal

Intellectual Property Organization (WIPO) and its global initiatives in promoting IP protection and innovation.

Session-2: IP Laws of India, What Can Be Patented? International Treaties: Here, participants learned about the intellectual property laws in India, including the legal framework governing patents, copyrights, trademarks, and designs. The session also explored the criteria for patentability and eligibility for patent protection, along with an overview of international treaties and agreements related to intellectual property.

Session-3: Grant of Patent, Trademarks, Geographical Indications of Goods: This session focused on the practical aspects of IP rights, particularly the process of obtaining patents, registering trademarks, and protecting geographical indications of goods. Participants gained insights into the patent granting process, trademark registration procedures, and the significance of geographical indications in protecting the origin and quality of products.

Session-4: Trade Secrets, IPR Licensing, and Technology Transfer: The final session delved into the concept of trade secrets, emphasizing their importance as a valuable form of intellectual property protection. It also addressed the complexities of IPR licensing and technology transfer, providing participants with strategies for effectively managing and monetizing their intellectual property assets.

Conclusion:

- The workshop comprised four sessions, covering topics such as start-ups in academia, history of intellectual property, IP laws of India, patent filing, trademarks, trade secrets, and IP licensing.
- Participants engaged in interactive questionnaires to assess their understanding of the workshop content.
- A quiz was conducted to reinforce learning, followed by feedback from participants to evaluate the effectiveness of the workshop.

The workshop concluded with a vote of thanks, expressing gratitude to the guest speaker, participants, and organizing committee for their contributions.

Outcomes: On successful completion of program

1. Participants gained insights into the importance of safeguarding intellectual property (IP) assets for start-up ventures.
2. Practical knowledge and skills were acquired for navigating the complex landscape of IP rights.
